DSC180-A10: Responsible AI | Write-up #1

For your Q1 Project, you will work with Medical Expenditure Panel Survey (MEPS) data.

To learn more about the MEPS data, please read the Data Background page on their website.

MEPS data is made available to researchers and policy analysts in both the public and private sectors. To see some of the topics that researchers publish on, read the Topics page (you can click on a topic to read some of the related publications).

Prompt: Based on your understanding of the data and how it is or could be used, identify places where ethical AI issues or harms could be present. Outline what the consequences of those harms could be and propose ways to identify and mitigate those harms.

Your answer should be at least 500 words (approx. one single-spaced page).
